Screenener & Introduction

Water Quality Valuation Study

When we analyze the results from everyone, we are seeking to understand how valuable potential changes in the quality of water in rivers and streams are to you, your household, your community, and the nation.

Your participation is completely voluntary, and you may choose to stop the survey at any time. However, we encourage you to complete it as our results can affect communities across the U.S., particularly in the northeastern states.

Please click here to review the [information sheet](#) for your rights as a participant.

Section I: General Background Questions

Please watch the following video for instructions on completing the survey.

Thank you!

Water Quality Valuation Study

How would you describe the proximity of your residence to a river or stream? Please select all that apply.

- I have a waterfront property
- I can see small streams or rivers from my home
- I see modest to larger size streams or rivers from my home or on drives I commonly make every week
- I do not live close to any river or stream

On average, how often do you visit a river or stream?

- Daily
- Not daily but more than once a week
- Weekly
- Not weekly but more than once a month
- Monthly
- One to several times per year
- Never

What do you think of the overall quality of rivers and streams in your county?

Scoring system for your reference:

Strongly disagree Disagree Somewhat disagree Neither agree nor disagree Somewhat agree Agree Strongly agree

4. Impaired or heavily loaded (beyond natural levels) with nutrients like nitrogen and phosphorus (from fertilizers in farms and on lawns, or from human or animal waste).

In the past year, did you participate in any recreational activity at or near a river or a stream? Please select all that apply.

- No, I did not participate in any recreational activity in or near a river or a stream
- Yes, Hiking/Walking
- Yes, Swimming/Wading
- Yes, Wildlife viewing
- Yes, Boating/Canoeing/Kayaking
- Yes, Picnicking
- Yes, Fishing
- Yes, Other

In your opinion, compared to other households, how significant is the relative contribution of you and your household, through products you purchase and consume and through your daily activities, in adding pollutants to water?

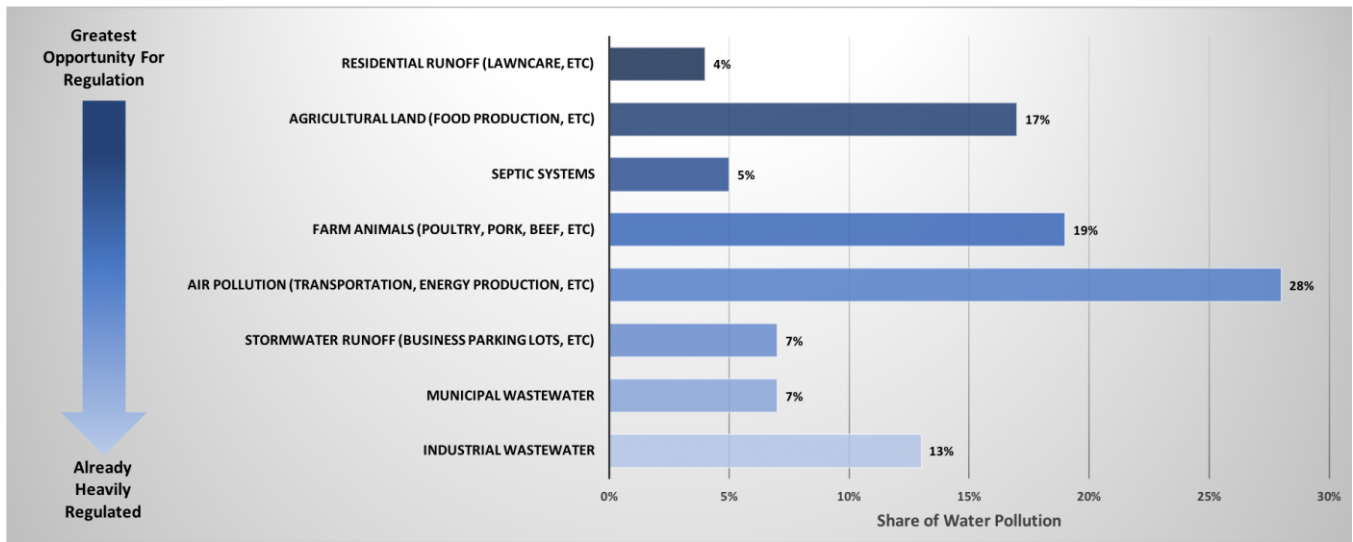

Not Significant About the same as other households Substantially more than other households

0 10 20 30 40 50 60 70 80 90 100

You or your household's contribution to water pollution, compared to others

SECTION II: CHOICE QUESTIONS (Instructions)

An Example: Sources of water pollutants by share of pollution contribution and extent of regulation. The shares are based on a study conducted in a major waterway in North-Atlantic region of the United States.

[Click Here to Enlarge](#)

In your opinion, compared to other households, how significant is the relative contribution of you and your household, through products you purchase and consume and through your daily activities, in adding pollutants to water?

Not significant About the same as other households Substantially more than other households

0 10 20 30 40 50 60 70 80 90 100

You or your household's contribution to water pollution

SECTION III: Payment Vehicle

The State of Missouri has established certain taxes (to support conservation) through specific Amendments to the Missouri State Constitution, approved by a public vote of its residents. These taxes can only be used for the purposes specified in that Amendment. Courts have prevented the Missouri legislature from redirecting such funding to alternative purposes, even in times of budget crises. Only the voters of the state can change the use of such funds.

A policy to implement water quality improvement programs will require funding for the costs of the program. In the following questions, the government is planning to raise funds through a taxing approach integrated in your State's Constitution (as seen in the example given above for Missouri). These taxes can only be used for the purposes specified in the Amendment and only voters of the state can change the use of such funds.

To what extent does this approach make you more confident that any new tax dollars collected from you would be dedicated only to support water quality improvement programs?

No change in my confidence

Somewhat more confident

Moderately more confident

Very much more confident

I would be extremely confident

A policy to implement water quality improvement programs will require funding for the costs of the program. In the following questions, the government is planning to raise funds through federal tax collections, which are then passed to your state through a contract to implement water quality improvement programs. As a contract, your state legislature is unable to use these dollars for any other use.

To what extent does this approach make you more confident that any new tax dollars collected from you would be dedicated only to support water quality improvement programs?

No change in my

In this section of questions:

You will be given the **current conditions of ONE collection** of 100 miles of rivers and streams and **TWO possible Program Outcomes** (A and B).

You will be asked to vote on one of three options (**No Action, Produce Outcome A, or Produce B**)

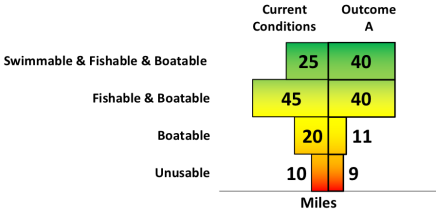

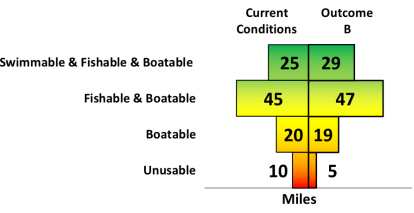

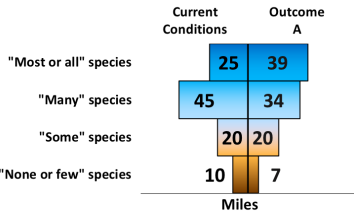

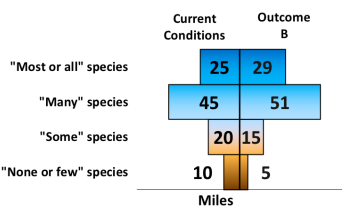

*Thus, in each of the following questions, you are being asked to **pick which outcome**, if either, you would prefer the current conditions described to **PRODUCE**.*

Section IV: CHOICE QUESTIONS - BLOCK 1

Suppose only three program options (No Action, Produce Outcome A, Produce Outcome B) are available and their expected outcomes for rivers and streams in **10 years** are listed here. If you were voting now, which option would you vote for? (*Mark one box at the bottom to indicate which option you would prefer.*)

If you are having trouble understanding the question, kindly rewatch the [study's instruction video](#).

Section IV: CHOICE QUESTIONS - BLOCK 6

Suppose only three program options (No Action, Produce Outcome A, Produce Outcome B) are available and their expected outcomes for rivers and streams in 10 years are listed here. If you were voting now, which option would you vote for? (*Mark one box at the bottom to indicate which option you would prefer.*)

If you are having trouble understanding the question, kindly rewatch the [study's instruction video](#).

Type 2 Transition Block

In this section of questions:

You will be given the **Current Conditions of TWO different collections** of 100 miles of rivers and streams (A and B) and **ONE Program OUTCOME**.

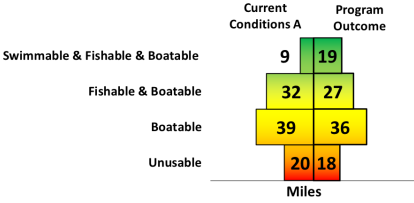

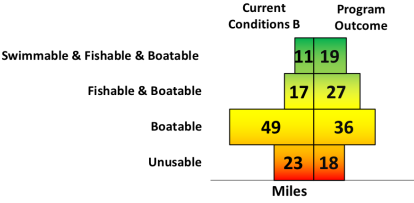

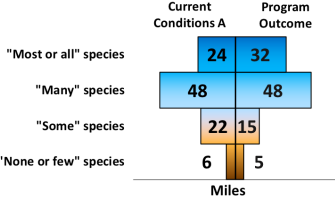

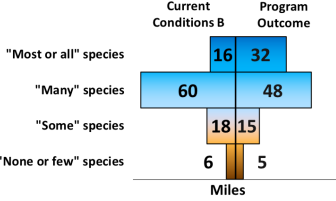

You will be asked to vote on one of three options (**No Action, Improve Conditions A, or Improve Conditions B**).

*Thus, in each of the following questions, you are being asked to **pick which 100 mile collection** of rivers and streams, if either, you would prefer to **IMPROVE**.*

Section V: CHOICE QUESTIONS - BLOCK 1 - TYPE 2

Suppose only three program options (No Action, Improve Conditions A, Improve Conditions B) are available and their expected outcomes for rivers and streams in your county in 10 years are listed here. SECTION VI: Thinking about how you just voted...

If the new taxes were raised under the authority of your state legislature, how confident are you that these taxes would be dedicated to only support water quality improvement programs?

Not confident at
all

Somewhat
confident

Moderately
confident

Confident

Very confident

If the new taxes, as presented in our voting choice questions, were raised under Congressional authority, how confident are you that these taxes would be dedicated to only support water quality improvement programs?

Not confident at
all

Somewhat
confident

Moderately
confident

Confident

Very confident

The State of Missouri has established certain taxes (to support conservation) through specific Amendments to the Missouri State Constitution, approved by a public vote of its residents. These taxes can only be used for the purposes specified in that Amendment. Courts have prevented the Missouri legislature from redirecting such funding to alternative purposes, even in times of budget crises. Only the voters of the state can change the use of such funds.

If the new taxes were raised through a taxing approach integrated in your State's Constitution, as seen in Missouri, how confident are you that these taxes would be dedicated to only support water quality improvement programs?

Not confident at
all

Somewhat
confident

Moderately
confident

Confident

Very confident

Please rate how much you agree or disagree with the following statements. (Please click on one answer for each statement.)

	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
1.I think my state would adopt a taxing approach similar to Missouri	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.Governments should use existing revenue to pay for conservation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3.I am against more government spending	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4.I do not trust the government to make proper use of tax money	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5.I think conservation is important	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6.Polluting entities should pay for conservation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7.Only those who use the water bodies regularly should pay for their conservation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8.I am willing to help communities upstream do more to protect water quality in rivers and streams	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. Since food, waste, and activities of my household can contribute to pollution, I am willing to pay some of the costs of water quality improvement directly	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree
Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree

Please rate how much you agree or disagree with the following statements. (Please click on one answer for each statement.)

	Strongly disagree	Disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Agree	Strongly agree
1. I voted as if my household would actually face the costs shown in the questions	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. I voted as if the programs would actually achieve the results shown within 10 years	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. I would vote differently if the programs took longer to achieve the results shown	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. I think the attribute/choice levels presented in this survey were within reasonable bounds	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. It is important to improve waters in this area, no matter how high the costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Improvements in water quality are important to my county	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. The changes presented in the choice questions were generally too small to be of importance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. My use of water bodies has been affected because of degradation of water quality	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. I believe communities downstream benefit more from improving water quality	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Strongly disagree	Disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Agree	Strongly agree

SECTION VII: Questions about you and your household

What is your age (in years)?

How many children under age 18 are living in your household?

- None
- 1 child
- 2 to 3 children
- 4 to 5 children
- More than 5 children

**Prior to the coronavirus outbreak, what was your primary employment status?
(Choose the one answer that best fits your situation.)**

- Employed full time
- Employed part time
- Unemployed looking for work
- Unemployed not looking for work
- Retired
- Student
- Disabled
- Other
- Prefer not to answer

What is your occupation? (If retired, choose the category that best describes your working years.)

How has your employment been affected by the outbreak?

Have you or any member of your family ever worked in any of the following industries or jobs?

- Agriculture/Farming
- Fishing related
- Environmental protection or conservation
- Extraction/mining related
- Tourism
- Chemical or pharmaceutical manufacturing
- Construction or manufacture of building materials
- None of these

What is your total annual pre-tax household income, including all earners in your household?

- Under \$25,000
- \$25,000-\$49,000
- \$50,000-\$74,999
- \$75,000-\$99,999
- \$100,000-\$149,000
- \$150,000-\$199,999
- \$200,000 or more

Choose one or more races that you consider yourself to be:

- Native American
- White
- Black or African American
- Hispanic
- Asian
- Native Hawaiian or Pacific Islander
- American Indian or Alaska Native
- Other (Please Specify)

Are you Spanish, Hispanic, or Latino?

- Spanish
- Hispanic
- Latino
- None

What is the highest degree or level of schooling you have completed?

- Did not complete high school
- Completed high school
- Some college
- Associate's Degree
- Bachelor's Degree
- Master's degree
- Professional degree, or doctorate degree (DDS, JD, PhD, EdD)

What is your gender?

- Male
- Prefer not to say

Female

Prefer to self describe

What is your zip code?

Do you own a house?

- Yes
- No

What do you think is the current market valuation of your home/property?

- Less than 100,000 dollars
- 100,000 - 200,000 dollars
- 200,000 - 300,000 dollars
- 300,000 - 400,000 dollars
- 400,000 - 500,000 dollars
- 500,000 -750,000 dollars
- 750,000-1,000,000 dollars
- More than 1,000,000 dollars
